

Media Savvy with Mike Sanders and Fr. Jarrod Lies

Wednesday, November 11, 2009 at 7:00 pm

Does your child know more about your home computer than you do?

Would you like to monitor your child's computer activity but aren't sure how?

Join Mike and Fr. Lies as they help parents become up to date on the technologies children use, advise on what limits to enforce at home, and demonstrate how to do periodic checks to ensure children's prudent use of technology.
